Feedback on facilities analysis

SPRAGUE FEEDER AREA

As part of our recent facilities analysis, we asked school staff and community members if our facilities needs list was missing any needed projects. More than 500 people submitted written feedback. All suggested projects were considered and using our established criteria of systems that were failing or on the verge of failing, they were put into one of three categories. (1) Projects that will be added to the construction bond proposal; (2) projects that will go into our general fund maintenance work order list; and (3) improvements or enhancements to be considered in the future.

1. Additions to the Construction bond proposal: These items will be added to the upcoming construction bond proposal. They are in addition to the items identified by our facilities analysis, and mentioned by you as critical renovations, repairs and upgrades.

Sprague: Repair and replace auditorium lighting panels.

Judson: Replace plumbing fixtures.

2. Projects added to our Maintenance List: These items will all have a work order issued and be placed on our Maintenance List to be worked on as part of our regular yearly maintenance schedule. These projects will be paid for through our regular budget, and will not be part of the construction bond proposal.

Sprague: Water leaking into Room 11, ventilation in food labs; outside lighting, water quality, and replacement of moveable walls.

Crossler: HVAC and carpet.

Judson: HVAC concerns including duct cleaning, water lines, roof leaks, repair restroom faucets, and replace light diffusers, and replace hallway exit doors.

Salem Heights: Address HVAC, pest, and mold concerns.

Schirle: HVAC concerns.

Wright: HVAC and hot water supply.

3. Future improvements or enhancements if funding is available: This list is of improvements or enhancements requested. These are not critical repairs or renovations, but are considered enhancements to the existing facility. Thanks to your feedback, they are part of our overall future facilities needs.

Sprague: Request to add windows that open in the food labs.

Judson: Request for additional staff phones.

Pringle: Request to add air conditioning for classrooms.

Salem Heights: Request to address noisy flooring.

Schirle: Request to add lighting to the parking lots.
