Feedback on facilities analysis

WEST SALEM FEEDER AREA

As part of our recent facilities analysis, we asked school staff and community members if our facilities needs list was missing any needed projects. More than 500 people submitted written feedback. All suggested projects were considered and using our established criteria of systems that were failing or on the verge of failing, they were put into one of three categories. (1) Projects that will be added to the construction bond proposal; (2) projects that will go into our general fund maintenance work order list; and (3) improvements or enhancements to be considered in the future.

1. Additions to the Construction bond proposal: These items will be added to the upcoming construction bond proposal. They are in addition to the items identified by our facilities analysis, and mentioned by you as critical renovations, repairs and upgrades.

Walker: Upgrade the HVAC unit.

Brush College: Replace single paned windows.

Chapman Hill: Redesign the parking lot for safety concerns.

2. Projects added to our Maintenance List: These items will all have a work order issued and be placed on our Maintenance List to be worked on as part of our regular yearly maintenance schedule. These projects will be paid for through our regular budget, and will not be part of the construction bond proposal.

Walker: Mold and rust in the locker room; rust in the water, and asbestos concerns.

Brush College: Flooding concerns.

Chapman Hill: HVAC system, electrical outlets, pest control; and replace some carpeting.

3. Future improvements or enhancements if funding is available: This list is of improvements or enhancements requested. These are not critical repairs or renovations, but are considered enhancements to the existing facility. Thanks to your feedback, they are part of our overall future facilities needs.

Walker: Request for additional smoke detectors, fire alarms, security cameras and card access.

Brush College: Request for additional adult toilets

Chapman Hill: Request for windows that open and air conditioning for classrooms.

Asbestos issues deemed to be a health or safety concern are immediately corrected as per our district asbestos management.
